

## Responsive Log in Page

A hand-drawn wireframe of a responsive login page. At the top is a header bar containing a hamburger menu icon on the left and a circular logo with the letter 'L' on the right. Below the header are three stacked rectangular input fields. The first field is shaded with diagonal lines. Below these fields are two rectangular buttons, each containing the letter 'B'. At the bottom of the page is a footer area. Arrows point from the following labels to the corresponding elements: 'Header' points to the top bar, 'User and password form' points to the three input fields, 'login button for student or staff' points to the two 'B' buttons, and 'footer' points to the bottom area.

## Responsive Sign up Page

A hand-drawn wireframe of a responsive sign-up page. It features a similar header bar with a hamburger menu icon and a circular logo with the letter 'L'. Below the header are six stacked rectangular input fields. The first field is shaded with diagonal lines. A bracket groups the second and third fields, with a label 'First and Last Name' pointing to them. The fourth field is labeled 'Student ID' with an arrow. The fifth and sixth fields are grouped by an arrow pointing to the label 'user and pass'. Below these fields are two rectangular buttons, each containing the letter 'B'. At the bottom is a footer area. Arrows point from the following labels to the corresponding elements: 'Header' points to the top bar, 'First and Last Name' points to the second and third input fields, 'Student ID' points to the fourth input field, 'user and pass' points to the fifth and sixth input fields, 'sign up as student or staff' points to the two 'B' buttons, and 'footer' points to the bottom area.
